

Centurion stands for strength and rigidity but because we believe even the toughest of washrooms deserve some style, it looks good too. Satisfying your need for extra privacy, the range comes with standard, full height or increased privacy options.

Centurion

Centurion's strength comes from a number of key details. Wall channels offer extra rigidity and pilasters extend to the floor, so no pedestals are required. Easy to clean, robust and vandal-proof, these cubicles come with hardwearing fittings.

01 High strength, fluted satin anodised aluminium pilaster.

02 Indicator bolts come with emergency release facility as standard.

See p76-77 for Centurion technical specifications.

Centurion HPL with satin anodised aluminium pilasters and Vepps HPL panels.

Key features

- Robust frame design
- Fluted satin anodised aluminium pilasters
- Renowned for strength and rigidity
- Hardwearing and easy to maintain
- Easily adjustable hinges
- Emergency release indicator bolts
- A choice of 34 on-trend laminates

Centurion Full Height

A handsome design in any setting, Centurion Full Height cubicles are supplied with floor to ceiling toilet partitions and overpanels above the doors, creating a private space. So if you're looking for extra privacy when specifying cubicles, Centurion Full Height will satisfy your needs.

01 Floor fixed satin anodised aluminium pilasters with 5mm floor clearance.

02 Fluted satin anodised aluminium pilaster and overpanels above doors.

See p76-77 for Centurion Full Height technical specifications.

Key features

- Robust frame design
- Fluted satin anodised aluminium pilasters for added strength
- Overpanels above doors with full height partitions offers privacy for users
- Easily adjustable hinges
- Floor to ceiling for increased privacy
- Emergency release indicator bolts

Case Study Tudor Grange Academy

“To meet the rigorous demands of this type of environment, all facilities in our academy have to be robust, efficient and fit for purpose. Centurion has fulfilled these requirements, and has given an excellent finished appearance.”

Graham Turner, Facilities Manager at Tudor Grange Academy.

Rated 'Outstanding' by Ofsted, Tudor Grange Academy is a comprehensive school in South Solihull. Also awarded 'World Class School' status, Tudor Grange is committed to delivering a high-quality educational experience for its 1,600 students.

The Academy strives to create a safe and secure space for its students and staff, giving everyone the opportunity to achieve and succeed. They wanted to make the new school washrooms a more open and less intimidating space for all students. The washrooms would also need to be easy for staff to supervise, where needed.

Tudor Grange Academy had a requirement for robust, high specification toilet cubicles that would be able to withstand the rigours of a large and busy Academy; as well as a panelling system that would be easy to maintain.

Renowned for strength and rigidity, Solihull Council chose the Centurion Full Height toilet cubicle range for six male and female unisex school toilets around the campus.

Robust Centurion Full Height cubicles specified in dark grey laminate, along with pre-plumbed Vepps panelling in yellow and green help create a positive, bright and airy unisex washroom environment. Combine that with the hardwearing materials chosen, Tudor Grange Academy's washrooms could withstand even the most boisterous teenage antics.

Performance

Available in three material options, Centurion is suitable for every type of wet or dry environment, allowing you to specify the most appropriate option to meet the site requirements and your budget.

MFC

For dry environments with low risk of vandalism. Panels are manufactured from 19mm nominal thickness high performance moisture-resistant melamine faced chipboard. Edges lipped with ABS.

HPL

For more heavily used washrooms, panels are heat, scratch and impact resistant. Manufactured from moisture-resistant chipboard faced with high pressure laminate, panels are 19mm nominal thickness. Edges lipped with ABS.

SGL

Solid grade laminate is extremely resistant to impact and all surfaces are impervious to water. Panels are 13mm nominal thickness with polished black radiused edges.
