

Rapiduct Easy installation

You need easy installation.

Simple, functional and highly cost-effective, this timber-framed panelling system is flexible enough to suit any washroom and is designed for your own installation. You can specify Rapiduct with any Venesta cubicle or vanity system.

The best value for function, finish and easy installation, Rapiduct's clever construction means it can be put together in the shortest time.

- 01 Install timber-frame (supplied by others).
- **02** Fit base flashgaps to the site frame followed by vertical, horizontal and top flashgaps.
- **03** Attach fixing clips to the inside edge of the vertical flashgaps, repeat process on back face of panels.

Technical Specifying Rapiduct

Dimensions

Bespoke panel sizes available to suit site dimensions.

Performance

Available in six material options, Rapiduct is suitable for every type of wet or dry environment, allowing you to specify the most appropriate panel option to meet the site requirements and your budget.

For dry environments with low risk of vandalism. Panels are manufactured from 19mm nominal thickness high performance moisture-resistant melamine faced chipboard. Edges lipped with ABS.

HPL

For more heavily used washrooms, panels are heat, scratch and impact resistant. Manufactured from moisture-resistant chipboard faced with high pressure laminate, panels are 19mm nominal thickness. Edges lipped with ABS. Post-formed vertical edge option available.

Solid grade laminate is extremely resistant to impact and all surfaces are impervious to water. Panels are 13mm nominal thickness with polished black radiused edges.

ColourCoat

Panels are 18mm nominal thickness MDF finished, sprayed with a coat of primer and finished with 20% gloss pigmented lacquer.

ColourCoat High Gloss

Panels are 18mm nominal thickness MDF finished, sprayed with a coat of primer and finished with 80% gloss pigmented lacquer.

Manufactured from chipboard faced with real wood veneer, panels are 18mm nominal thickness. Edges lipped with matching ABS.
