

Vepps gives you a ground-breaking pre-plumbed system that ticks all the boxes. It's simple, flexible and compatible with all products. Plus, it's adaptable enough to work across any sector.

You need simplicity.
 Vepps is the industry's first precision engineered pre-plumbed panelling system with a click-fix assembly into an aluminium frame. That means installation is efficient and cost-effective.

Simplicity.

Key features

- Metal-framed, pre-plumbed system
- Factory fitted sanitaryware
- Ultra strong aluminium frame
- Industry leading design
- Unique Venesta linear-bearing hinge™
- Complete onsite flexibility
- Provides a cost-effective, quick installation
- Reduces the need for onsite specialist skills
- Suitable for wet and dry environments
- Bespoke system ready to install
- Suitable for all board types
- Increased product longevity

With 7 unbeatable benefits...

 **Cost.**
 Proven to be more cost effective over the whole project lifecycle.

 **Onsite speed.**
 Onsite installation 50% faster than traditional plain panel method systems.

 **Quality.**
 Perfect factory finish and panel alignment as well as a 10-year guarantee.

 **Maintenance.**
 No manual handling with our linear-bearing hinged panels.

 **Health & Safety.**
 Less tradesmen and less time spent on site reduces health and safety risk.

 **Choice.**
 Sanitaryware from Ideal Standard, Armitage Shanks and SanCeram.

 **Environment.**
 90% less packaging and board waste is recycled in our biomass burner.

Speed.

See how quick and easy it is to operate Vepps by watching our dedicated video on our YouTube channel.

You need speedy installation.
Our design team created Vepps to ensure that's what you get. There are four easy steps to installation, so you can be up and running in the shortest possible time frame, with a guaranteed quality finish.

- 01** Once the site has been prepared, fix the aluminium docking frame to the wall, ceiling and floor.
- 02** Click-fix the first Vepps unit onto the frame and slide into position. Open the mid panel to a fully hinged position. Attach a vertical flashgap to the frame on either side of the unit, screw-fixing to the frame from the face. Fix tie back to the wall. Repeat until all units are in place.
- 03** Once all the units are in position, connect the plumbing and services.
- 04** Simply close the hinged panel and attach the top and bottom panels of the unit. Installation complete.

🕒 20 minute installation 🕒 30 minute installation 🕒 10 minute installation* 🕒 5 minute installation

The comparisons given between Vepps, Frameduct and Rapiduct are a guide and are designed to help you choose the right product for your project. * Dependent on brassware.

Case Study ICON Outlet at The O2

Venesta were pleased to work alongside ISG and Wren Construction to provide male, female, baby and accessible washroom facilities.

Spanning an impressive 210,000 square feet, ICON Outlet is The O2's brand new urban outlet shopping centre, bringing together over 60 of the best fashion and lifestyle brands.

Unity cubicles were specified to meet the high demands of this new and exciting shopping centre. Unity's clean, modern and minimal design was the perfect choice, offering a 'floating' flush front that makes a guaranteed impact.

The HPL cubicles supplied have a durable moisture resistant chipboard core, faced with high pressure laminate to accommodate daily cleaning requirements. Unity also offers anti-tamper, concealed stainless steel and satin anodised aluminium fittings, ensuring the strength and security of the cubicles.

ICON Outlet selected our ground-breaking pre-plumbed Vepps system, making regular duct maintenance effortless thanks to its linear-bearing hinge. Our 90 degree hinge removes the need to manually lift off and replace panels when carrying out maintenance work, which is inefficient and could cause the panels to become damaged or misaligned.

Venesta were proud to have been involved in such a significant project, helping to ensure shoppers, diners and visitors of all ages and abilities have the best possible customer experience, even when visiting the washroom.

Read the full case study at www.venesta.co.uk

Technical Specifying Vepps

Dimensions

Maximum ceiling height

MFC	3000mm
HPL	3000mm
SGL	3000mm

Maximum heights subject to change with woodgrain colours.

Bespoke heights available.

Skirting/baserail height

100mm

Top flashgap

50mm minimum

Hinged panels

Hinged and lockable panels available up to 850mm width.

Sanitaryware

Fitted sanitaryware has been specially engineered to give you the highest quality finish.

WCs	Baths
Basins	Squat pans
Urinals	Cleaners sinks
Showers	Healthcare items
Washtroughs	

Performance

Available in six material options, Vepps is suitable for every type of wet or dry environment, allowing you to specify the most appropriate panel option to meet the site requirements and your budget.

MFC

For dry environments with low risk of vandalism. Panels are manufactured from 19mm nominal thickness high performance moisture-resistant melamine faced chipboard. Edges lipped with ABS.

HPL

For more heavily used washrooms, panels are heat, scratch and impact resistant. Manufactured from moisture-resistant chipboard faced with high pressure laminate, panels are 19mm nominal thickness. Edges lipped with ABS. Post-formed vertical edge option available.

SGL

Solid grade laminate is extremely resistant to impact and all surfaces are impervious to water. Panels are 13mm nominal thickness with polished black radiused edges.

ColourCoat

Panels are 18mm nominal thickness MDF sprayed with a coat of primer and finished with 20% gloss pigmented lacquer.

ColourCoat High Gloss

Panels are 18mm nominal thickness MDF sprayed with a coat of primer and finished with 80% gloss pigmented lacquer.

Veneer

Manufactured from moisture resistant chipboard faced with real wood veneer, panels are 18mm nominal thickness. Edges lipped with matching ABS lipping.

Detailing

Panels

Available in MFC, HPL, SGL, ColourCoat, ColourCoat High Gloss and Veneer.

Flashgaps

MFC, SGL, ColourCoat, ColourCoat High Gloss and Veneer.

Colour finish

MFC, HPL and SGL
34 colours.

ColourCoat & ColourCoat High Gloss
10 ColourCoat and ColourCoat High Gloss colours available when specifying Vepps with selected V1 and V2 cubicle ranges. Unlimited ColourCoat and ColourCoat High Gloss options (any classic RAL) when specifying Vepps with selected V3 cubicle ranges.

Veneer

Wide range of Alpi veneer options (varying price points).

Edge treatment

MFC and HPL

Matching ABS lipping.

Post-formed vertical edge option available with HPL.

SGL

Polished black radiused edge.

ColourCoat & ColourCoat High Gloss

Edges are sprayed with a coat of primer and finished with 20% or 80% gloss pigmented lacquer, respectively.

Veneer

ABS lipping to match.

Flashgaps

Flashgaps have unfinished edges except return end flashgaps which will be ABS lipped (or polished if solid grade laminate).

Docking frame

Headrail and baserail manufactured from extruded aluminium section.

Subframes

Manufactured from rolled galvanised steel section with aluminium cross brace bars. Subframe installed within aluminium docking frame by click-fix nylon location brackets. Back panels fixed to steel section by metal brackets.

90° linear-bearing hinge™

Manufactured from zinc plated steel with chrome plated rivets and black glass filled nylon linear-bearing, set at fixed height of 1950mm.

Panel lock

Manufactured from stainless steel with a polished finish in set positions.

Technical Specifying Vepps

Secrets of Vepps

WC Hinged Panels

Washbasin Hinged Panels

Urinal Hinged Panels

1. Venesta linear-bearing hinge™

Our precision engineered, high strength linear-bearing hinges and panel support ratchets offer smooth movement and allow panels to be positioned at 10 different heights, all without any gaps between panels. Patent approved.

2. Venesta dowel-dock

Designed for strength and perfect panel alignment, our dowel-dock system ensures panels return to their correct position every time. Patent approved.

3. Tie backs

Adjustable zinc plated steel tie backs offer a bracing system for improved stability and allow for easier, speedier installation.

4. Baserail

Designed in a smooth, modern Light Grey or Dark Grey powder coated aluminium finish, the Vepps baserail, ensures compatibility with all cubicle ranges and washroom designs.

5. Panel lock

We understand the need for added safety without compromised aesthetics. In stainless steel with a tamper proof security key opening, our panel locks are discreet and ensure maximum security.

6. Wall hung WC carrier

Our wall hung WC carrier is made from Solid Grade Laminate. It simply locates into the baserail and is fixed back to the building structure without the need for floor bolts. The assembly has been load tested to 400kg and complies with BSEN 997.

7. Fittings

We understand the need for products that last. That's why all of our metal components are non-ferrous or coated to protect against rusting and corrosion.
